

Classic Cultivator (With Pipe)

Классический Культиватор (с трубой)

You can use our cultivators for secondary plowing of soil, preparing seed bed, loosening the soil, breaking the lumps, cutting root crops, improving the water distribution and preventing the soil from making sole. Cultivator keeps the moisture in the soil. It overturns, hoes and aerates by adjusting the changeable tines distances. Our product, produced with double middle toe, have forged steel tines and can be dismantled to one tine.

Культиватор с трубой предназначен для выполнения почвообработки на виноградниках, культивации, междустовой обработки и рыхления почвы.

MODEL	Модель	AGCWP 7	AGCWP 9	AGCWP 11	AGCWP 13	AGCWP 15
Tine Number	количество зубов	7	9	11	13	15
Working Width (cm)	ширина захвата	170	220	270	320	370
Working Depth (cm)	Рабочая глубина	30	30	30	30	30
Total Length (A) (cm)	ширина (A)	170	220	270	320	370
Total Width (B) (cm)	ширина (B)	85	85	85	85	85
Height (C) (cm)	высота (C)	118	118	118	118	118
Required power (hp)	Мощность (лс)	40-50	50-60	60-70	70-80	80-90
Weight (kg)	масса (кг)	220	270	320	370	440
